

Inland Empire chapter Antique and Classic Boat Society 2023 Officer and Board of Directors Election

Treasurer

Mike Wilson- Mike grew up in North Idaho - CDA High School. NIC, U of Idaho - accounting degree. Lived in Seattle for 10 years - passed CPA exam and worked for Price Waterhouse. Moved back to CDA in 1988 and worked for Advanced Input Devices for 12 years. Since then, have worked for numerous startup companies. Retired recently but still on several boards - Idaho Health Facilities Authority (26 years), Orchard Ridge Senior Living and college fraternity advisory board. First mate Carol and I used to own a 1953 Shepherd "One Particular Harbour" which now has a good home on Hayden Lake.

Secretary

Kathy Dutro- Kathy was a commercial Lender for over 45 years. She retired in 2015 as the Senior Credit Officer for Mountain West Bank in Coeur d'Alene. She and her husband Glen have been members of the IEACBS since 2008. They own two Chris Craft Holidays. One Glen is in the middle of being restored.

Board of Directors Position 1 and 2 (vote for two)

Mitch Johnson- Mitch grew up in the Puget Sound area, married Tracy in 1982 and moved to Spokane in 1989.

His professional career began in 1977 working in the Industrial Air Compressor industry employed by Rogers Machinery Company. He worked his way from field engineer to upper management and recently semi-retired after 46 years with Rogers Machinery. Rogers Machinery has also been a sponsor to the Inland Empire Chapter for a number of years.

Mitch spent 15 years volunteering as a search and rescue pilot with Civil Air Patrol logging over 3500 flight hours as a mission pilot performing air searches, aerial border patrol, counter drug and cadet flight programs.

Mitch and Tracy joined the ACBS in 2010 and have both served on the board in various roles. Mitch has been a long-time boater and restored his dad's 20' 1967 Thompson "Golden Days" that he fished in as a child. The restoration began in 2010 and was finished in 2016. In the 2021 ACBS International show, Golden Days was awarded Platinum in Utility class.

Mitch's hobbies are boating, RC planes, helicopters, and model railroads.

Paul Rodkey- I was born and raised in Spokane. I am a graduate of Shadle and Whitworth. My mom and dad were educators in Spokane.

I am a retired Presbyterian pastor with a 40-year career who worked with all generations as both a parish pastor and a campus pastor at EWU. After Kerri and I retired in 2016 we served our country as Peace Corps Volunteers in Botswana Africa for 2 and ½ years. We have 4 children and one granddaughter.

My first boat restoration was of a boat identical to a boat my grandfather had when I was a child. A 1958 Burchcraft. Having no experience at such a task I feel as though it turned out pretty good!

My hope for the ACBS club is in line with the stated purpose of the club. To help the ACBS community know and appreciate each other and to encourage those working on classic boats.

Tim Murphy- Tim joined ACBS in 2013 when he entered the Dry Rot at Priest Lake with his 1946 Gar Wood, Gargeous. He was introduced to Dick Werner at one of the functions that year and you know the rest of that story. Tim and his family have been at Priest Lake since 1946 when his grandfather bought a cabin in Reeder Bay. His sisters still own that cabin but he and Sherri now reside at Sundance next to Grandview. Tim has a daughter and son in law that also have a unit at Sundance while two of Sherri's kids have a place in Cougar Bay and Sherri

owns Sherri's Place right next door. He and Sherri have attended several of the boat shows over the years including Whitefish, Sandpoint, Coeur d Alene and every Dry Rot. They have helped the Fairs at the Dry Rot many times and are avid boaters. They sold Gargeous last spring and now own a 1961 Lyman, Dragon Fly.

Doug Brooke- I was introduced to boating at about five years old beginning with my Dad's 1937 Century that was kept in a float house on lake Coeur d' Alene. In 1960 the 37 was traded for a new Century Coronado that remains in our family today. In those days, boating was something we did as a family at the lake every weekend in the summer, I never thought it would end.

My dad was an impassioned historian among other things and would always be telling me (and anyone else who would listen) about special motorboats and the important people who owned them or built them going back to the very early days on the lake. Over time I became more and more immersed in learning everything I could about

boats and in particular about marine motors and outboards which was a particular fascination. Later in life I turned my passion for boat motors into a fulltime business as vintageoutboard.com.

After high school I worked at a few marinas and as a mechanic and learned a great deal about the business. Later, I graduated from college with a degree in international business then worked for US Bank in the securities side of things. I also worked for Ford Motor Credit first in Anchorage and later Spokane. I recall sitting through more than my fair share of meetings. I have had some exposure to the club and the ACBS organization mostly through my wife Roberta's presidency of this club in 2002 when we brought the first international ACBS boat show to Coeur d' Alene. I think I have a pretty good Idea how things are supposed to work to keep an organization running smoothly.

I believe I can make a positive contribution to this club by bringing my diverse experience and unique perspective to the board.
